

PS811 Exercise 3 Beamer

Who? Mingcong Pan

When? 10/15/2021

Pros

- Przeworski (2010): work on the limits of democracy
- Svolik (2012): definition and typology of authoritarian regimes
- Grzymala-Busse (2017): carries importance under the current wave of global populism
- Lindberg et al. (2014): a unique dataset
- Boix and Stokes (2003): falsifies the previous literature by doing three robustness checks
- Svolik (2008): distinguishes between democracies that survive because they are consolidated and those democracies that are not consolidated but survive due to other reasons
- Haber and Menaldo (2011): applied statistical exercise
- Magaloni (2008): uncovers the dictator's dilemma
- Truex (2017): explores China as a case
- Chung-Hon Shih (2008): identifies personal ideological campaigns as a channel for loyalty monitoring

Pros

- Przeworski (2010): mainly takes personal interests as the driving force
- Svolik (2012): dichotomy
- Grzymala-Busse (2017): can be more formal and structural
- Lindberg et al. (2014): the incomparability of country experts' subjective scores
- Boix and Stokes (2003): fail to control for country-specific factors
- Svolik (2008): insistence of using a binary measure for democracy
- Haber and Menaldo (2011): instrumental variable problematic
- Magaloni (2008): does not control for other factors that may affect authoritarian survival
- Truex (2017): people's self-censorship
- Chung-Hon Shih (2008): interpretations of the variations in report coverage are problematic
